

# Cash Star<sup>TM</sup> 7125/7225

Multi-function cash recycling ATM

Delivering advanced recycling technology

The optimisation of cash management calls for specialist experience, resources and truly innovative technology. Across the world, Talaris' cash management solutions are trusted by thousands of organisations to ensure their cash is managed securely and efficiently whilst delivering the ultimate in productivity.

Talaris have in excess of 250 patents granted across 26 countries and are world experts in optimal cash handling solutions. 2,300 Talaris professionals, including over 1,000 service and support staff and 130 business partners cover over 100 countries delivering these solutions - wherever money moves.

The Cash Star 7125/7225 is a compact cash dispenser and self-service deposit machine, designed to fully automate routine banking operations. This ATM platform incorporates a cash-recycling module which enables cash deposits to be made outside of normal bank opening hours, with transactions being credited immediately to customers' accounts.

The latest technological innovations and the highest manufacturing quality standards make Cash Star 7125/7225 a state-of-the-art multi-functional and fully automated teller machine.

## European recycling framework compliant

The Cash Star 7125/7225 is fully compliant with the European Recycling Framework, authenticating and fitness sorting all banknotes in accordance with the standards set by the ECB.

## Reduces operational costs

The high capacity and reliability of the Cash Star 7125/7225 family allows financial institutions to significantly reduce their cash handling costs, as the need for CIT visits to replace cassettes is minimised. Also, the number and value of notes in transit, stored in the ATM and sent for fitness sorting at the cash centre is reduced, thereby reducing lost interest.

In addition, cash-recycling in the branch may decrease insurance rates and will enable tellers to concentrate on customers' needs and added-value activities.

## Security

Cash Star 7125/7225 has built in authentication technology to validate notes which are deposited, dispensed or retracted. Other security features include 3-DES, remote key loading, anti-skimming and anti-Lebanese loop features in the card reader and fascia, plus safes and locks that grade from UL291 to CEN IV.

## Flexibility

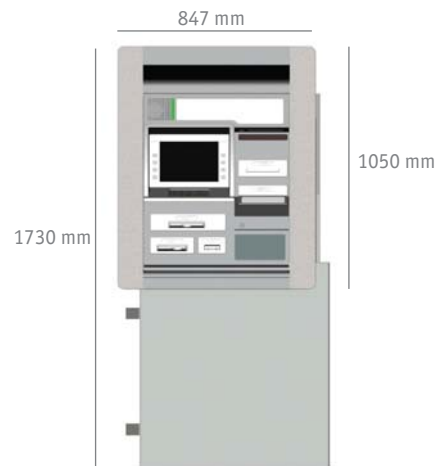

Available in various installation configurations, the Cash Star 7125/7225 can be used as cash recycling ATM, a cash dispenser providing intelligent deposits, or purely as a deposit system.

The Cash Star 7125/7225 can be easily upgraded to include additional functionality as a financial institutions' needs and cash processes change.

The ATM has a flexible set of added-value options such as a safe-bag deposit, coin dispensing and/or deposit (in sidecar),

cheque and document scanner, statement or passbook printers, among others.

These features allow financial institutions to add transactions to their self-service zone such as multi-currency recycling, bill payment with change or foreign exchange as well as full coin and note deposit, in addition to standard ATM transactions.

Dimensions shown are for Cash Star 7225, through-the-wall installation  
Weight: 950 kg
