

Cash Star™ 9310

Indoor/outdoor slim-line cash dispenser

A modular and innovative design delivering cash withdrawal functionality in a compact footprint

The optimisation of cash management calls for specialist experience, resources and truly innovative technology. Across the world, Talaris' cash management solutions are trusted by thousands of organisations to ensure their cash is managed securely and efficiently whilst delivering the ultimate in productivity.

Talaris have in excess of 250 patents granted across 26 countries and are world experts in optimal cash handling solutions. 2,100 Talaris professionals, including over 1,000 service and support staff and 130 business partners cover over 100 countries delivering these solutions - wherever money moves.

Cash Star 9310 is a through-the-wall indoor and outdoor cash dispensing ATM, delivering an efficient and high level of cash availability.

Its slim-line and innovative design, as well as its compact shape, makes this ATM an ideal solution for the latest branch design concepts and demands. The Cash Star 9310 can be deployed into any environment at a low cost of ownership, to improve response times and convenience whenever and wherever customers require cash.

Design to fit

The Cash Star 9310 has one of the smallest footprints in its product segment, fitting perfectly at any contemporary location, from small bank branches to high-demand retail off-premise installations, delivering a wide range of transactions, including: cash withdrawals, bill payments, mobile top up, balance enquiry and optional coin dispensing.

Extended functionality and improved service

With the addition of the optional coin dispenser, the Cash Star 9310 is also able to dispense any value in mixed coins and banknotes, enabling payments to be made at the ATM. In addition, this ATM is able to accept payroll cards giving customers the ability to carry-out payment transactions outside of normal business hours.

Low maintenance and ease of management

By integrating energy saving solutions, such as the new LED-based technology used for the customer illumination, Cash Star 9310 allows total cost of ownership to be lowered and also reducing service interventions. These savings are extended by the machine's reduced operational service area, cutting down lease costs.

Reinforced security

Incorporating a complete set of up-to-date security features Cash Star 9310 reduces the risk of fraud and increases customer confidence and security.

Product specification

Note dispenser	Bundle delivery of up to 100 notes Note feeding through friction process Up to 4 cassettes Up to 3000 notes per cassette	Physical security	Safes – CEN L, CEN 1, CEN III, CEN IV Support for several locks (key, mechanical, electronic) Seismic sensor Door-open, bolt sensors Support for ink-dye solutions
